NSW and Local Government Area Business Profiles 2021

May 2021

Introduction

This document contains infographic profiles of NSW Local Government Area (LGA) business statistics for 2021, using the latest data available from the Australian Bureau of Statistics and the NSW Department of Planning, Industry and Environment, with a focus on small businesses (0-19 employees). Each LGA has data shown for demographics, business statistics and business statistics by demographic.

Explanatory Notes

ABS Data Perturbation

The ABS (Australian Bureau of Statistics) deliberately randomly adjusts all counts from its census data releases, to protect the confidentiality of individuals. This means one cannot try to compare different data items or segment data to make inferences on individuals. The perturbations will affect data with small counts the most.

The introduction of random perturbations also means that some items won't add to their published total, this is commonly seen where 'total business counts' does not equal (but is close to) the addition of business counts for businesses with 0, 1-19 and 20 or more employees.

Data Items

LGA CLASSIFICATION: Regional or Metro classification, based on NSW Department of Planning, Industry & Environment definitions of an LGA being of the 'Sydney Metropolitan LGAs' or 'Regional NSW LGAs'.

POPULATION: Sourced from the NSW Department of Planning, Industry & Environment's "2016 NSW Population Projections data".

PROJECTED POPULATION GROWTH: Estimated annual percentage change of population growth, either positive or negative, sourced from the NSW Department of Planning, Industry & Environment's "2019 NSW Population Projections data".

MEDIAN AGE: The median age is the exact age at which half the population is older and half is younger. Data were presented in ABS Data by Region, Local Government Areas 2019.

SEIFA RANK: This item refers to the "Local Government Area (LGA) Index of Relative Socio-economic Disadvantage" which ranks 130 LGA areas in NSW (including Unincorporated), the lower the value of an LGA's ranking, the greater the socio-economic disadvantage. Sourced from ABS data release "2033.0.55.001 Socio-Economic Indexes for Australia (SEIFA) 2016".

% OF RESIDENTS BORN OVERSEAS: Data originally from ABS Census of Population and Housing 2016 and was presented in ABS Data by Region, Local Government Areas 2019. This data includes respondents who did not state an answer to this question.

% OF RESIDENTS THAT SPEAK ANOTHER LANGUAGE AT HOME: Data originally from ABS Census of Population and Housing, 2016 and was presented in ABS Data by Region, Local Government Areas 2019. This data includes respondents who did not state an answer to this question.

% OF INDIGENOUS RESIDENTS: Data originally from ABS Census of Population and Housing 2016 and was presented in ABS Data by Region, Local Government Areas 2019. This data includes respondents who did not state an answer to this question.

BUSINESS COUNTS, BY NUMBER OF EMPLOYEES (0, 1-19, and 20 or more employees): Data originally from the ABS release “8165.0 - Counts of Australian Businesses, including Entries and Exits, Jun 2016 to Jun 2020” and sourced from data presented in ABS Data by Region, Local Government Areas.

TOTAL BUSINESS COUNT: Data originally from the ABS release “8165.0 - Counts of Australian Businesses, including Entries and Exits, Jun 2016 to Jun 2020” and sourced from data presented in ABS Data by Region, Local Government Areas.

SMALL BUSINESS COUNT: This value was derived by adding up business counts of businesses with 0, 1-19 employees. Due to ABS data perturbation, the ‘Small Business Count’ may sometimes exceed ‘Total Business Count’ when the true values of small and total business counts are close.

% SHARE OF SMALL BUSINESSES: This value was calculated by taking the ‘small business count’ and dividing it by ‘total business count’.

TOP FIVE INDUSTRIES, BY BUSINESS COUNTS: Data originally from the ABS release “8165.0 - Counts of Australian Businesses, including Entries and Exits, Jun 2016 to Jun 2020” and sourced from data presented in ABS “Counts of businesses by industry division by Local Government Area (LGA) by Employment size ranges”.

% MALE VERSUS FEMALE BUSINESS OWNERS: Findings based on use of ABS TableBuilder data using ABS 2016 census data “Employment, Income and Education”.

AGE OF BUSINESS OWNERS: Findings based on use of ABS TableBuilder data using ABS 2016 census data “Employment, Income and Education”.

% OF INDIGENOUS BUSINESS OWNERS: Findings based on use of ABS TableBuilder data using ABS 2016 census data “Employment, Income and Education”.

TOP FIVE LANGUAGES SPOKEN (AT HOME) BY BUSINESS OWNERS: Findings based on use of ABS TableBuilder data using ABS 2016 census data “Employment, Income and Education”.

% OF BUSINESS OWNERS BORN OVERSEAS: Findings based on use of ABS TableBuilder data using ABS 2016 census data “Employment, Income and Education”.

NSW and Local Government Area Business Profiles 2021

Appendix

Methodology and Sources

The following is a list of all data items contained in this report, with details on how the variable was obtained and/or created.

- 1 LGA classification i.e. metro or regional
 - Population estimates by age and sex, by LGA, 2019. Regional population by age and sex. Reference period 2019. ABS.

- 2 Population
 - Population estimates by age and sex, by LGA, 2019. Regional population by age and sex. Reference period 2019. ABS.

- 3 Projected population growth
 - LGAs (including Unincorporated region): Uses the main series population projections. Found in 'LGA population projections' from NSW Department of Planning, Industry & Environment's "2019 NSW Population Projections data". These values were derived using the projected difference in population between 2021 and 2046, then calculating the annual percentage change.

- 4 SEIFA rank among NSW LGA's
 - LGAs (including Unincorporated region): Ranks refer to "Local Government Area (LGA) Index of Relative Socio-economic Disadvantage" from ABS data release "2033.0.55.001 Socio-Economic Indexes for Australia (SEIFA), 2016".
 - Bayside: Rockdale and botany bay were 96 and 97, they merged to bayside so bayside was assigned the rank of 96 but no other ranked changed i.e. no 97 exists.
 - NSW, Metro and Regional: Ranks exist only for LGAs.

- 5 Median age
 - LGAs (including Unincorporated region): Uses median age 'Median Age', from ABS Population Data by Region, Local Government Areas 2019 – ABS 3235.0 Regional Population by Age and Sex, Australia.
 - NSW: Uses weighted average of median age by NSW LGAs.
 - Metro and Regional: Uses weighted average of median age of metro LGAs and regional LGAs respectively.

- 6 % of residents born overseas
 - LGAs (excluding Unincorporated region): Uses 'CENSUS_13: Total born overseas (%)' from ABS Data by Region, Local Government Areas 2019.
 - Unincorporated: Uses ABS TableBuilder data (2016 Census – Cultural Diversity).
 - NSW: Uses 'CENSUS_13: Total born overseas (%)' in NSW data profile, from ABS Data by Region.
 - Metro and Regional: uses 'CENSUS_13: Total born overseas (%)' from Data by Region for 'Greater Sydney (GCCSA)' for Metro and 'Rest of NSW (GCCSA)' for Regional.

- 7 % of residents that speak another language
 - LGAs (excluding Unincorporated region): Uses 'CENSUS_13: Total born overseas (%)' from ABS Data by Region, Local Government Areas 2019.
 - Unincorporated: Uses ABS TableBuilder data (2016 Census – Cultural Diversity).

- NSW: Uses 'CENSUS_33: Speaks a Language Other Than English at Home - Proportion of total population (%)' in NSW data profile, from ABS Data by Region.
 - Metro and Regional: uses 'CENSUS_33: Speaks a Language Other Than English at Home - Proportion of total population (%)' from Data by Region for 'Greater Sydney (GCCSA)' for Metro and 'Rest of NSW (GCCSA)' for Regional.
- 8 % of indigenous residents
- LGAs (excluding Unincorporated region): Uses 'CENSUS_13: Total born overseas (%)' from ABS Data by Region, Local Government Areas 2019.
 - Unincorporated: Uses ABS TableBuilder data (2016 Census – Cultural Diversity).
 - NSW: Uses 'CENSUS_2: Aboriginal and Torres Strait Islander Peoples - Proportion of total population (%)' in NSW data profile, from ABS Data by Region.
 - Metro and Regional: Uses 'CENSUS_2: Aboriginal and Torres Strait Islander Peoples - Proportion of total population (%)' from Data by Region for 'Greater Sydney (GCCSA)' for Metro and 'Rest of NSW (GCCSA)' for Regional.
- 9 Total business count
- All data are from the ABS release “Counts of Australian Businesses, including Entries and Exits. Reference period: July 2016 – June 2020”.
- 10 Businesses with 0 employees
- All data are from the ABS release “Counts of Australian Businesses, including Entries and Exits. Reference period: July 2016 – June 2020”.
- 11 Businesses with 1-19 employees
- All data are from the ABS release “Counts of Australian Businesses, including Entries and Exits. Reference period: July 2016 – June 2020”.
- 12 Businesses with 20 or more employees
- All data are from the ABS release “Counts of Australian Businesses, including Entries and Exits. Reference period: July 2016 – June 2020”.
- 13 Small business count (0-19 employees)
- This value for NSW, Metro, Regional and all LGAs (excluding Unincorporated region) was calculated by adding the counts for businesses with '0 employees' and '1-19 employees'
- 14 % share of small businesses
- This value for NSW, Metro, Regional and all LGAs was calculated by taking a percentage of the small business count, by adding counts for businesses with '0 employees', '1-19 employees', over the total business count.

15 Top five industries by business counts (0-19 employees)

- All data are from the ABS release “Counts of Australian Businesses, including Entries and Exits. Reference period: July 2016 – June 2020”.
- LGAs (including Unincorporated region): To get the number of businesses (that employ 0-19 employees) for each industry within an LGA, the counts for ‘Non employing’ and ‘1-19 employees’ for each industry were aggregated. These aggregates, which now represent number of businesses by industry for 0-19 employees, were made into percentages and ranked in the same order as those for total businesses.
- NSW, Metro, Regional: All counts from individual LGAs for businesses that employ 0-19 employees were aggregated to counts for NSW (by adding all), Metro (adding metro classified councils) and Regional (adding regional councils). These were then ranked in order of highest to lowest and made a percentage of their total count (all counts added together). The total count included ‘Other Services’ and ‘Currently Unknown’. The top five industries were then separated, with any ties for fifth being resolved randomly.

16 % Male versus female business owners (total)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).
- LGAs: All counts for male business owners and female business owners for each LGA were available by how large the owner’s business was: ‘Nil employees’, ‘1-19 employees’ and ‘20 or more employees’. Counts for ‘Nil employees’ and ‘1-19 employees’ and ‘20 or more employees’ were aggregated to form the total counts of male and female business owners for each LGA, these were then made a percentage of the total (male and female business owner counts added together).
- NSW: The above process was repeated for NSW data.
- Metro and Regional: Counts for data from metro classified LGAs were aggregated to form Metro NSW data and data from regional classified LGAs was aggregated to for Regional NSW data, this was then processed in the same way as LGAs above.

17 % Male versus female business owners (0-19)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).
- The same processes as ‘total’ were followed, but only adding counts for ‘Nil employees’ and ‘1-19 employees’ to make totals for male and female business owners.

18 Age of business owners (total)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).

- LGAs: All counts for business owners of different age groups ('0-9 years', '10-19 years', '20-29 years', '30-39 years', '40-49 years', '50-59 years', '60-69 years', '70-79 years', '80-89 years', '90-99 years' and '100 years and over') for each LGA were available by how large the owners business was: 'Nil employees', '1-19 employees' and '20 or more employees'. Counts for 'Nil employees' and '1-19 employees' and '20 or more employees' were aggregated to form the total counts of business owners by age for each LGA, groups from ages 0 to 29 were added to form counts for those less than 30 years old (<30), while groups from 60 and over were added to form counts for those over 60 years old (≥60). The counts for the final groups ('<30', '30-39', '40-49', '50-59' and '≥60') were then made percentages of the total number of businesses (all counts from all ages added together)
- NSW: The above process was repeated for NSW data.
- Metro and Regional: Counts for data from metro classified LGAs were aggregated to form Metro NSW data and data from regional classified LGAs was aggregated to form Regional NSW data, this was then processed in the same way as LGAs above.

19 Age of business owners (0-19)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).
- The same processes as 'total' were followed, but only adding counts for 'Nil employees' and '1-19 employees' to make totals for age groups.

20 Number (% of businesses) Indigenous owned businesses (total)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).
- LGAs: All counts for business owners were grouped by whether they identified themselves as indigenous ('Aboriginal', 'Torres Strait Islander' or 'Aboriginal AND Torres Strait Islander'), non-indigenous ('non-indigenous') or non-stated ('non stated') for each LGA and were available by how large the owner's business was: 'Nil employees', '1-19 employees' and '20 or more employees'. Counts for 'Nil employees' and '1-19 employees' and '20 or more employees' were aggregated to form the total counts for 'indigenous', 'non-indigenous' and 'non-stated' owners for each LGA. The count for indigenous business owners was then made a percentage of the total count (total of counts for 'indigenous', 'non-indigenous' and 'non-stated' business owners).
- NSW: The above process was repeated for NSW data.
- Metro and Regional: Counts for data from metro classified LGAs were aggregated to form Metro NSW data and data from regional classified LGAs was aggregated to form Regional NSW data, this was then processed in the same way as LGAs above.

21 Number (% of businesses) Indigenous owned businesses (0-19)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).
- The same processes as 'total' were followed, but only adding counts for 'Nil employees' and '1-19 employees' to make totals for age groups.

22 Top five languages spoken by business owners (total)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).

- All counts for business owners were available by what language they use at home ('Northern European Languages', 'Southern European Languages', 'Eastern European Languages', 'Southwest and Central Asian Languages', 'Southern Asian Languages', 'Southeast Asian Languages', 'Eastern Asian Languages', 'Australian Indigenous Languages', 'Other Languages', 'Supplementary codes', 'Not stated') and by how large the owner's business was: 'Nil employees', '1-19 employees' and '20 or more employees'. The group 'Northern European Languages' contained English, so a separate data file with the number of business owner that use English at home was utilised to split 'Northern European languages into two groups 'English' and 'Northern European Languages (not English)'. Counts for 'Nil employees' and '1-19 employees' and '20 or more employees' were aggregated to form the total counts for each language for each LGA. These were then ranked in order of highest to lowest and made a percentage of their total count (all counts added together, including not stated). 'Not stated' was not included in the rankings, so that it could not possibly rank in the top 5. The top five industries were then separated, with any ties for fifth being resolved randomly.
- NSW: The above process was repeated for NSW data.
- Metro and Regional: Counts for data from metro classified LGAs were aggregated to form Metro NSW data and data from regional classified LGAs was aggregated to for Regional NSW data, this was then processed in the same way as LGAs above.

23 Top five languages spoken by business owners (0-19)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).
- The same processes as 'total' were followed, but only adding counts for 'Nil employees' and '1-19 employees' to make totals for language groups.

24 % of business owners born overseas (total)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).
- All counts for business owners were available by where they were born and by how large the owner's business was: 'Nil employees', '1-19 employees' and '20 or more employees'. Two groups were formed, those born in 'Australia (includes external territories)' and those who were not: by adding counts of those born anywhere else together. Counts for 'Nil employees' and '1-19 employees' and '20 or more employees' were aggregated to form the total counts for each group for each LGA. The counts for business owners not born in 'Australia (includes external territories)' were then made a percentage of the total (all counts added together).
- NSW: The above process was repeated for NSW data.
- Metro and Regional: Counts for data from metro classified LGAs were aggregated to form Metro NSW data and data from regional classified LGAs was aggregated to for Regional NSW data, this was then processed in the same way as LGAs above.

25 % of business owners born overseas (0-19)

- Calculated using data sourced via use of ABS TableBuilder (2016 Census – Employment, Income and Education).
- The same processes as 'total' were followed, but only adding counts for 'Nil employees' and '1-19 employees' to make totals for those born in 'Australia (includes external territories)' and those who aren't.
